

Science topics	Section layout	Accompanying worksheets	Lesson considerations
<ul style="list-style-type: none"> Fuel and energy use involved in food shopping. 	<p>This section looks at food shopping habits and the location of supermarkets in towns. There is a drag and drop design-your-own-town activity to prompt discussion about locations of local amenities. Able students could go on to compare fuel and energy use for in and out of town shopping</p>	<p>Town planning This simple worksheet should be done in conjunction with the activity on the website. It encourages students to think about the problems of town planning and how an ideal town might be set out. It has cross-curricular links to geography.</p> <p>NB: Students will need to have printed out their town design from the site in order to complete the worksheet activities.</p>	<p>Ensure that student have visited this section of the site before doing the work sheet and have Designed a town.</p> <p>This section could be used as an introduction to learning about carbon footprint or after students have learned about the greenhouse effect, climate change and carbon footprint.</p>
